

SL/CI-4 General Engine Oil

【Performance features】

- Superb detergent performance, which can effectively control the generation of deposits and sludge;
- Remarkable oxidation stability and thermal stability, which can effectively reduce thickening of engine oil and prolong the drain interval
- Outstanding dispersant performance and anti-wear capability, which can retard wear of valves and heavy-load parts;
- Excellent fuel efficiency, which can reduce the fuel consumption to the maximum;
- Unique tiny-phosphor formula, which is favorable for environmental protection and ternary catalytic converters.

【Application】

This product is appropriate some limousines and sports cars of Cadillac, Lincoln, Benz, BMW, Audi, LEXUS and Buick as well as heavy-duty, four-stroke diesel engine trucks and diesel passenger cars of Mack and Benz. This product is particularly appropriate for the large super-heavy-duty container trucks and diesel vehicles equipped with EGR system. The product can meet both the 2002/4 emission regulations of American Environmental Protection Agency and European emission regulations.

【Products】

5W/20, 5W/30, 5W/40, 5W/50, 10W/40 and 15W/40

【Recommended Drain interval】

20,000 km for gasoline vehicles and 30,000 km for diesel vehicles
